fungimap

Fungimap aims to promote the conservation, study and appreciation of Australian macrofungi in the natural environment.

To build on the evident success of Fungimap, and to give the new organisation a good start, we are currently seeking financial support. Any support that you can provide would be much appreciated.

Tax deductible donations can be made before 1st June 2005, to the Royal Botanic Gardens Melbourne, who will be administering Fungimap funds until incorporation. Donations will be acknowledged as Fungimap Founding Donors. There will be an opportunity for groups making donations to publicise their activities through Fungimap Newsletter (such as by the inclusion of brochures).
